By adopting this animal, all owners are expected to provide protective housing, a nutritional diet, proper veterinary care and a lifelong companionship for their new pet. DPR reserves the right to schedule a home visit prior to or after adoption to ensure the wellness of our adopted animals. DPR may be contacting you via email or phone to see if you have any questions or concerns with the new adoptive pet's adjustment to their new home. Under the terms of this agreement, adoptive owners that are no longer able to care for the adopted animal must return said animal to Doberman Pinscher Rescue, who will arrange for re-homing. We have their records on file and their best interests in our hearts.
